3126 Cat Engine No Start

There should be about 28 to 55 kPa (4 to 8 psi) while cranking. If there is not any oil pressure then check for dilution of oil (dilution will lower oil pressure), engine oil pump, and pickup. 7. Slow Cranking: Cranking speed should be a minimum of 100 rpm for engine starting. Refer to Problem 2: Engine Hard To Or Will Not Start.

3126 cat no start, will crank fine, fire on ether but not continue to run, leaks oil into fuel, assume injector o-rings are bad, have been told its been using oil for over a year and running ok. Intake heater light not lighting. It is 65deg here.

3126 cat no start, will crank fine, fire on ether but not ...

I have a 3126 cat engine that stopped running, cranks like crazy but no fire, we changed the oil pump on the oil pan, changed the pressure sensor on side of pump and still no start, no smoke coming ou ... read more

3126 Cat Crank no start. - JustAnswer

Re: HELP - 3126B CAT motor wont start If it won't stay running after firing with ether, it sounds like the injector pump isn't working or a clogged fuel filter, although it could also be a bad lift pump (if it has one).

SOLVED: 3126B CAT motor wont start - Heartland Owners

This engine has a small primer on the water separator filter but none on the engine and secondary filter. Also where is the fuel transfer pump (near the HPOP)? Any suggestions you may have would be greatly appreciated. My local (30 miles away) Cat dealer will not come down to run the codes and I hesitate using either to start it again. Thanks Bob

Cat 3126 B won't start **HELP*** | TruckersReport.com**

...

Not exactly the same engine, but yours were derived from the 3116, sort of. I did experience an unwanted engine shut down, only once during 17 years of ownership overall. So, don't take this as a suggestion that your problem is likely to be the same, also because I'm not sure if the 3126 and the 3116 share the same component.

3126 engine must be a E series on hard starting. Having a diesel shop. change out the IAP sensor because symptom of startup with IAP sensor disconnect is kind crude but will indicate. problem in the IAP circuit.

Cat 3126 starting problem - Diesel RV Club, an FMCA Chapter

The Caterpillar 3126 engine is a CAT engine that was used for light and medium duty uses. It was used in everything from boats, cranes, over the road trucks and ambulances to RVs and buses. It is based on an earlier design (3116), and when it was retired, the CAT C-7 was based on it and was it's replacement.
